FLOORING

Creating a strong brand identity can be a powerful way to differentiate your gym from the crowd.

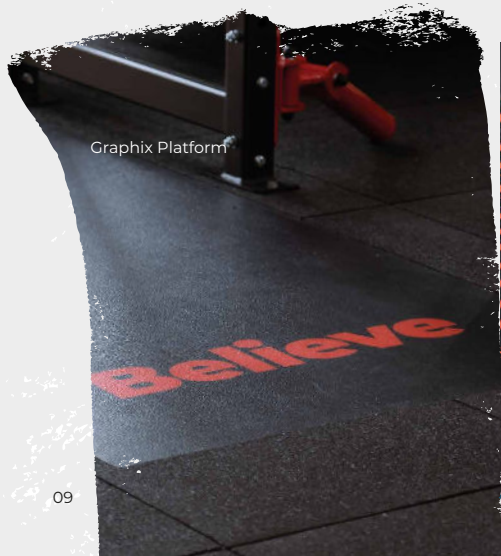

We incorporate branding and logos into a wide array of flooring types.

FROM THE GROUND UP

Many of our flooring options offer the chance for custom colours, designs and branding, whether that's functional markings and logos, custom layouts for turf tracks, or logos on weightlifting platforms.

Graphix platforms allow you to have a full length, full colour, images so you can create real visual impact.

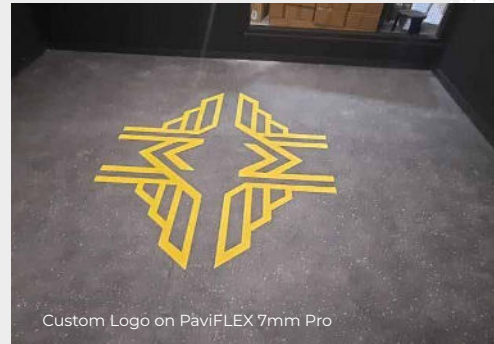

Turf tracks can add an attractive visual element to a gym, especially if it is coordinated with the gym's color scheme and branding.
